Description

595 Avanti Performer Roller Skate!

A beautiful speed and performance set-up for top level derby and and serious Recreational/Jam Speed skaters!

The Boot: Riedell 595

Features: hand sorted full grain leather uppers, in black or white, Chinook leather lining, Riedell HF-5 heat moldable reinforcement - outside quarter right boot. Snug ties for a snug fit and Stitched and cemented leather outsoles. Hand-made in U.S.A. **SIZING:** Standard instock boots are Medium (Alpha last) width sized in Men's sizes. Ladies will typically choose 1-1.5 sizes lower in Men's sizes than their usual shoe size (ie. 8L= 6.5 - 7M), however please refer to Riedell's website for detailed sizing information: [Riedell Fitting Guidelines](#) and **CALL 1-855-765-5752** before ordering to make sure you get the right size :D

The Plate: Sure-Grip AVANTI

The SURE-GRIP Avanti has lightweight modern design with snappy 10 degree action! Offered in both Magnesium and Aluminum, this 10 degree double action plate is built to last. With our exclusive use of magnesium in plate construction, we've crafted a sleek hollow design to give skaters performance and durability without sacrificing lightness. We've made mounting easy by including four mounting holes in the front of the plate to aid in mounting different boot types. Mounting hardware included. The Avanti Magnesium Plate includes a newly designed precision adjustable pivot truck that can withstand the intensity while giving you balance and durability, both the truck and plate are powder coated with a white finish. The Avanti Aluminum Plate includes a standard fixed pivot double action truck, both polished aluminum. Plates will come with black axle nuts and mounting hardware. Also included are Sure-Grip super cushions with matching cushion retainers, 4 conical and 4 barrel (not all barrel as per the pictures).

NOTE: The Magnesium alloy plate (white plate) is roughly 48% lighter than the aluminum version (Aluminum plate).

The Wheels: Sure-Grip ZOMBIE

All Zombie wheels are made in the USA and feature anodized aluminum hubs for maximum durability and precise feel while maintaining rock solid stability. This allows our unique urethane compounds to deliver all your power to the floor.

Zombie Aluminum Core

Designed in house and manufactured using state of the art machining technology. What makes this different from other aluminum cores? The Zombie core is machined from a solid billet of aluminum. This increases strength and allows us to machine the hub to a tighter tolerance than any other hub on the market. Creating the perfect fit between bearing and inner core. Cores are then treated with a special anodizing process to increase hub durability and urethane bonding. This technology is unique to the Zombie wheel line.

Zombie Insane Urethane

Specially formulated to our exact specifications that were developed from 75 years in the skate wheel business. What makes this wheel different from the rest? All wheels are poured using a precise time schedule to ensue product quality throughout the range. Typically wheels are poured over time, sometimes days. This can change the characteristic of a wheel poured one day vs. another or even morning vs. afternoon. This timing is what make the Zombie wheel the most unique wheel on the market. Tired of new wheels not performing like your last set? The Zombie wheel will never have this problem.

The specs:

Zombie 62mm Max – 42mm full width wheel design for maximum grip and stability.

Zombie 62mm Mid – Slimmer 38mm width for increased lateral response.

Zombie 58mm Low – Smaller 58mm outer diameter and slimmer 38mm width wheels provide instant acceleration and increased lateral response.

The Bearings: BONES Reds

BONES Reds provide Best Roll for the money! Quality and Value Roller skate bearings by ROLLERBONES the best name in Roller Skate Bearings!

- *ASK about other build options and component substitutions for this package if desired.*
- *FREE plate mounting and skate assembly comes with this package at time of ordering!*
