Description

MOTA Truck BUSHINGS/CUSHIONS

Cast-urethane versus the traditional injected urethane bushing, equates to higher-rebound, quick response, stability, agility and longevity. The design is a two-piece system with unique shaped top and bottom. Bottom is larger, supporting the majority of the tension and stabilizing/control. The top is smaller, shaped to respond quickly, and provides a snappy return. The two bushings meet in the middle of the tuck, providing a smooth transitions from side to side. Complete set of 8 cushions.

- Available in 4 hardness's (X-Soft, Soft, Medium, Hard)
- Sold in sets of 8 (4 bottom, 4 top)
- Made of high quality, high-rebound poly urethane formula
- Made by cast (NOT injected) extends life of bushings
- Two piece system, custom shapes to optimizing response, stability, and agility
- Fits MOTA BOSS Plates or PILOT plates
