[Ask a question about this product](#)

### Description

**Vanilla VNLA Blackout Boots!** On the surface, the Vanilla Blackout boot is a simple color modification of the original Vanilla Brass Knuckle boot. In reality, however, VNLA has made some strategic changes to this model: The lace cover has been lowered to allow for more movement by the skater; The outsole has been revised and is now made of a stronger, upgraded leather with a high quality, form fitting finish; Top grain, hand sorted Italian leather is used across the entire boot – this change in leather sourcing allows for greater consistency, better durability, and a more comfortable feel. The insole has been changed to a more durable, form fitting insole. Overall a very nicely constructed serious derby style boot that has a similar fit, feel and finish as the Riedell Minx 965. Available in black (4-13), and in some half sizes as shown in the pull-down menu.

• **NOTE:** Please download and print the [Vanilla Sizing Guidelines here](#) to check for your perfect fit before ordering.

- Go to [Build-A-SKATE](#) and create your own custom build with this boot!
- Add your plate, wheels and bearings and get free mounting and assembly at time of ordering!

### Reviews

Thursday, 04 May 2023

These boots are very comfortable! They fit a little tight at first, but after wearing them for three hours, they broke in nicely and I'm pretty sure they'll only get better with time. The leather is top-notch and they look super stylish in my opinion. I would recommend them to a friend. Thanks.
